

## PRECISION ABRASIVE WATERJET SYSTEMS

### Equipment Specifications

# VS-SRS

### Standard Features

- Variable Frequency Drive (VFD) provides programmable flow rate and direction reversal for optimal abrasive removal
- 3/4 yard hopper that includes liner for ease of dumping garnet from hopper
- Optimized fluid return trough minimizes abrasive volume returning to the tank
- Suction line flushing feature
- UL, CE and CSA compliant
- Built-in GFCI protection

### Electrical Requirements

- 220/240 VAC (50/60 Hz) Single Phase 10A GFCI protected (supplied by owner)
- Ships with a Nema 6-20 male plug
- Install according to local electrical code

### Benefits

- Garnet removal rate as high as 5.6 lbs/min
- Provides an easy, economical way to clean the Catcher Tank with minimal time loss
- Uses only 21 sq ft of floor space
- Productively removes both large and fine particles

## OMAX® Variable Speed SRS

The programmable variable speed system provides precise control over garnet evacuation rate, direction, and duration to efficiently remove garnet from the waterjet Catcher Tank.

The Variable Speed Solids Removal System (VS-SRS) gives the operator the ability to program flow rate and direction. The controller's programmability provides greater garnet removal than comparable fixed speed units. An optimized fluid return trough increases settling time and minimizes abrasive volume returning to the tank.

### About OMAX

OMAX has the industry leading patented abrasivejet controller with a built-in expert system. Our exclusive "Compute First-Move Later" motion control system automates most programming and tool setup work, virtually eliminating the need for extensive operator training. Plus, with free OMAX Intelli-MAX® Software upgrades for the life of the machine and our ongoing commitment to advance the efficiency of our technology and software, OMAX saves you time and money.

Connect and follow OMAX for the latest news in waterjet technology.

The OMAX Technology Guarantee entitles you, as the original owner, to free OMAX software upgrades for the life of the machine.
