

WHAT WOULD YOU DO WITH AN EXTRA \$3100 EVERY YEAR?

ENDUROMAX
50HP, 60,000psi

INTENSIFIER
50HP, 60,000psi

Maximum nozzle cutting power (HP)

Maximum nozzle cutting power (HP)

Total water consumption (gal/min)

Total water consumption (gal/min)

EVERY YEAR WITH AN ENDUROMAX PUMP SAVES YOU

235,200
GALLONS OF WATER*

\$3,191
IN WATER & SEWER*

***Notes & Sources:**

Based on 85% weekly utilization rates over a 50 week work year.
 Water and sewer rates based on average commercial rates in California. Local rates may vary.
 Nozzle cutting power is calculated as hydraulic horsepower = pressure x flow / 1714
